2010 CN Forum Follow-Up Priorities

**Communication/Cooperation**

- More insight to North American cooperation.
- Investigation of U.S. - Canada information sharing and means of improvement.
- Universities are not tied to elections. (University-sponsored research is non-partisan. Universities have less turnover, therefore, possess more institutional knowledge.)

**Communication/Border Issues**

- Improved communication on border issues related to events.
- Comparison of all international borders.
- Uniformity concerning food resources at different borders

**Economics/ Business/ Technology**

- Economic impacts observed by universities.
- Cannot change what you cannot measure. (More research needed.)
- Risk management may be miss-implied. (Risks and Risk Management at the border lack consensus.)
- Transfer of goods from truck to rail transportation.
- Technology development and deployment?
- Small to medium business promotion through pilot programs and investments.
