

# MSU CANADIAN PARTNERSHIP FORUM

Canadian Studies Center  
International Studies and Programs  
MICHIGAN STATE UNIVERSITY

## Speaker

Dr. Brad Day  
Professor

Plant, Soil, and Microbial Sciences  
Michigan State University

## How Can Next Generation Technologies be Adopted in this Generation?

Thursday, February 13, 2020

3:00 p.m - 4:30 p.m

201 International Center

*Refreshments provided*

Connecting scholars  
across borders to address  
global challenges

Dr. Day and his team have developed a series of portable, handheld, point-of-contact diagnostic tools to empower growers, producers and consumers to make safe decisions about food and water. Shared expertise between MSU and Canadian scholars can further develop portable solutions and deliver current data and rapid responses to parts of the globe where technology is limited.
