RSVP csc@msu.edu*

Breakfast Seminar

**MICHIGAN STATE
UNIVERSITY**

Please join the Canadian Studies Center for International One Health Week and to meet Dr. Mahesh Kumar during a networking breakfast and keynote address.

“One Health – An Animal Health Industry Perspective”

Dr. Kumar is Senior Vice President of Global Biologics R&D responsible for the development of biologics including vaccines against emerging infectious diseases for Zoetis, the world's largest producer of medicine and vaccinations for pets and livestock.

- At Maine Biological Labs, he developed several key products including live and inactivated Salmonella vaccines and the bursal tissue origin line of infectious bursal disease virus containing vaccines among others.
- At Fort Dodge, he led the global poultry research and development activities licensing several key products for the food safety, hatchery and breeder segments.
- Notable products developed by Dr. Kumar are vaccines against Salmonella, E. coli and avian influenza. He has several publications in avian health and is an inventor or co-inventor on several patents.
- Dr. Kumar headed Netherlands' regional technical office responsible for EuAfME approvals of pharmaceutical and biological products for all species.

zoetis

The Leading Global Animal Health Company

Dedicated to supporting its customers with solutions to predict, prevent, detect and treat disease in animals. Zoetis discovers, develops, manufactures and markets veterinary medicines, vaccines and diagnostic products complemented by genetic tests, bio devices and a wide range of services.
